

LAB REPORT: X

Name
Roll Number
Group Number

Aim/Objective of the experiment:

Electronic components used:

Reference circuit:

The reference circuit **cannot** be a screenshot of the circuit designed on TinkerCAD. It should either be **hand-drawn** or some **online drawing tool** like circuit-diagram.org (any other online tool is also fine) must be used.

(Arduino can be represented by a rectangular block with relevant Pins clearly shown in the diagram)

Procedure:

Conclusion:

Link of the TinkerCAD simulation:
