Answer - Multiplication Table

```c
#include <stdio.h>
#include <stdlib.h>
#include <ctype.h>
#include <string.h>
#include <math.h>
#include <stdint.h>

int main(int argc, char *argv[])
{
        long int n,m,i=1,x,y;
        x=scanf("%ld",&n);
        if(x<0)
                {
                        return 1;
                }
        y=scanf("%ld",&m);
        if(y<0)
                {
                        return 1;
                }
        while(i<=m)
                {
                        printf("%ld\n",n*i);
                        i++;
                }
}
```
